Successfully executing your enterprise cloud ERP strategy means turning to the world's most proven, trusted and deployed cloud ERP solution—NetSuite (NYSE: N). With 20,000 organizations and subsidiaries running NetSuite across more than 100 countries, some of the world's best-known brands trust their businesses to NetSuite to take their financial and operational processes to the cloud.

Organizations that run NetSuite:

- Free themselves from expensive and disruptive upgrades.
- Deploy across divisions and subsidiaries with unprecedented speed and efficiency.
- Transform their IT operations—reducing cost and driving business results.
- Gain ERP that is flexible and changes with the needs of the business.

Transformational Benefits with NetSuite

NetSuite delivers transformational benefits for thousands of organizations across several different industries, geographies and stages of growth: whether they are large enterprises or rapidly growing small- and medium-sized businesses. NetSuite does this by slashing TCO, accelerating deployment, providing instant visibility, through to rapid ERP standardization.

Below is a small cross-section of our customers across the entire spectrum of growth.

NETSUITE BENEFIT	NETSUITE CUSTOMER	RESULT
Speed of deployment in months not years		Groupon deployed NetSuite OneWorld in 5 countries in six weeks, 26 countries in three months, and 49 countries in under one year.
Reduced total cost of ownership		By using NetSuite, CornerStone OnDemand cut several months of staff time while preparing for an IPO and it continues to help save time and money in day-to-day financial and compliance reporting.
Productivity improvements		Improved productivity and accurate, real-time data to support better business decisions of 300+ users while saving \$100,000 a year in licensing and IT costs.
Greater transparency at lower TCO powers growth		Company avoided high IT capital costs and ongoing maintenance. Simplified and sped coffee procurement from suppliers.
Manufacturer grows 300% while expanding market and attracting strategic investors		Revenue up by 300% year-over-year, while adding just two IT/ Business Application Analysts. Saving approx. \$360,000 yearly on IT development, configuration and customization over the cost of a comparable, on-premise ERP system.
International ecommerce channels	WILLIAMS-SONOMA	Enabled rollout of four global brands, four websites and four retail stores, all live on NetSuite in a matter of months.
Global manufacturing facilities managed by a single cloud-based ERP system		NetSuite OneWorld enabled China expansion in extremely short time. Deployed 11 subsidiaries to support Asia Pacific operations with a repeatable and proven model for international expansion; Local autonomy: runs Chinese partner solution for local tax reporting.
Standardizing on a common platform		Very rapid go-live with a platform that enables expansion to multiple countries rapidly with very little user ramp up time. Lack of data center and CapEx kept TCO low and IT head count was decoupled from business expansion plans.

WHY NETSUITE

Designed for a Modern Company

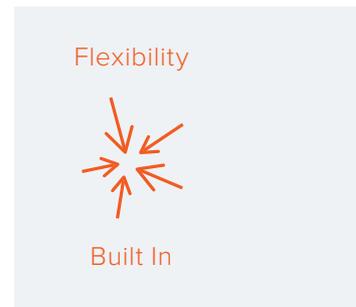

Cloud-based, mobile-enabled and social, NetSuite frees the modern business from antiquated PC-based, anti-social systems locked behind the firewall. At its core, NetSuite provides a dynamic, easy to use platform designed for all users across your global organization that can be accessed via any device, at any time.

Flexibility Built-in

As your business changes, you can change your business system. Scale up, spin off, adopt new business models, NetSuite's flexibility lets you do it all, quickly and easily. Version-lock is a thing of the past. With every NetSuite upgrade, your configurations and customization migrate seamlessly. NetSuite's SuiteCloud platform supports complete application customization and an average end user can configure and customize NetSuite to their specific business needs.

Business Intelligence for All

Real-time analytics is the NetSuite user interface. Users know what they should be doing and how they're helping the business, with easily accessible reports and key performance indicators. Vital business data is analyzed and displayed from right within the system. NetSuite Business Intelligence provides the power of built-in, real-time dashboards, reporting and analysis across all the integrated processes within the software suite.

“NETSUITE’S FINANCIAL REPORTING, COMPLIANCE WORKFLOWS AND OTHER FUNCTIONS HELPED US SAVE MONTHS OF STAFF TIME DURING OUR IPO PROCESS AND THEY CONTINUE TO HELP US SAVE TIME AND MONEY IN OUR DAY-TO-DAY FINANCIAL AND COMPLIANCE REPORTING.”

Cornerstone OnDemand

Commerce-Ready ERP

Regardless of your industry, changes in commerce are affecting you, whether you are planning for it or not. Period. The good news is, with NetSuite, your core business system now becomes your customer-facing commerce system with a customizable, customer-specific, pixel perfect experience. Featuring an advanced webstore that allows the creation of uniquely branded and personalized shopping experiences optimized for multiple devices, SuiteCommerce empowers businesses to run across any touchpoint—web, brick-and-mortar stores, social and mobile.

Cloud ERP Reaches Across the Business

Maximizing the ROI on ERP means extending beyond automating back-office operations to streamlining sales and service processes. NetSuite automates all elements of the business from core ERP to customer relationship management (CRM), professional services automation (PSA), Human Capital Management (HCM) and ecommerce. The result is streamlined order management and procurement processes, cross functional reporting and elimination of business silos.

KEY NETSUITE FEATURES

NetSuite provides cloud financial, CRM, ecommerce, HCM and professional services automation management for all organizations from fast-growing midsize companies to large global organizations. Additionally, each component of NetSuite is modular, enabling it to be deployed and integrated with existing investments as required. NetSuite OneWorld scales with global businesses by providing complete multi-subsidiary management and support for local accounting regulations.

THE #1 CLOUD BUSINESS SOFTWARE SUITE

One unified business management suite, encompassing ERP / financials, CRM and ecommerce

Global Cloud ERP

NetSuite provides a complete cloud ERP system for global businesses. Businesses running on NetSuite can populate a single chart-of-accounts across subsidiaries, or use separate charts-of-accounts for each company within a single instance.

- Maintain all currency exchange rates, and perform sophisticated roll-up across subsidiaries.
- Get real-time visibility, ensuring consistent and compliant internal and external reporting both globally and locally.

Manufacturing

NetSuite is a complete solution for manufacturing organizations that require inventory management with dynamic replenishment, production planning, warehouse management, financial accounting and costing, customer and partner relationship management, and ecommerce. Whether you're a true manufacturer, an assemble-to-order business or a distributor with manufacturing requirements, NetSuite lets you manage your entire business with one integrated cloud-based suite, delivered on demand over the Internet. It provides the essential visibility and control of key processes that manufacturers need to effectively compete in the market.

Services Resources Planning (SRP)

NetSuite offers the only cloud solution for project- and product-based companies with project management, resource management, project accounting and timesheet and expenses management. It delivers advanced functionality across sales, service and finance that drives down bench time, elevates on-time project delivery, improves invoicing accuracy, streamlines revenue recognition and increases visibility into the services organization.

Multi-Channel Commerce

NetSuite SuiteCommerce enables retailers, manufacturers and distributors to seamlessly connect every step of a multi-channel, multi-location business—from ecommerce, POS and order management to merchandising, marketing, inventory, financials and customer support. Featuring an advanced webstore that allows the creation of uniquely branded and personalized shopping experiences optimized for multiple devices, SuiteCommerce empowers businesses to run across multiple touchpoints—web, brick-and-mortar stores, social, mobile—all from a single, unified cloud-based commerce platform that provides unprecedented visibility into your business and customers.

Customer Relationship Management (CRM)

NetSuite allows enterprises to automate the opportunity-to-cash process and manage CRM activities across divisions and subsidiaries. It provides global visibility into and management of every aspect of CRM, including marketing campaigns, sales opportunities, forecasts, customer service, partner management and more.

TribeHR HCM

NetSuite TribeHR combines the rich, traditional HCM capabilities needed to manage growing organizations with an engaging, social interface that encourages employee involvement and collaboration. NetSuite TribeHR's system of record for employee activity, together with NetSuite's single system of record for core operational business data, gives organizations a modern platform to run the core aspects of their business – all with the scalability, flexibility and agility of the cloud.

NESUITE FOR LARGE ENTERPRISES

Just because you have pre-existing investments in a corporate on-premise ERP platform, doesn't mean you can't adopt cloud platforms. In fact, your prior investments in no way preclude you from taking advantage of all the benefits NetSuite cloud ERP offers.

Enterprises can deploy NetSuite to every corner of the globe with confidence. With support for more than 190 currencies, 19 languages and country-specific accounting standards across Europe, Asia and ANZ, NetSuite enables organizations to seamlessly meet the individual needs of local operations.

Numerous enterprises such as Land O'Lakes, Shaw Carpets, Williams-Sonoma, CA Technologies, Jollibee, Qualcomm, Olympus and others have deployed NetSuite across divisions and subsidiaries versus enduring expensive global on-premise deployments. SuiteCloud Connect provides packaged integration with prebuilt support for Oracle and SAP, together with connectors with enterprise integration tools such as Informatica, Dell Boomi and IBM Cast Iron that ensure NetSuite can seamlessly exchange transactions and master data with existing corporate investments.

In fact, given that businesses are constantly changing there are always events that present opportunities for you to take advantage of a cloud ERP solution like NetSuite.
